Engineering. Create. Innovate. Inspire.

WELCOME

Global Kotsumy Heavy Technology Industries

KOTSUMY is proud to be ranked among the 500 best companies in China and recognized as a leader in the Chinese heavy machinery industry. Collaborating with over 200 partner companies, KOTSUMY operates across specialized industrial divisions, each focused on delivering tailored products and services for heavy industry. This approach allows us to develop in-depth expertise and provide customized solutions to meet the unique needs of our clients.

As a global company specializing in the manufacturing and sales of specialized products, we supply advanced equipment designed for heavy and process industries. With a strong foundation in industrial engineering and design, we are equipped to address a wide range of industrial needs. Operating from our facilities in the United States and China, we proudly serve clients across South America, Central America, North America, Europe, Africa, and Asia, delivering innovative solutions worldwide.

KOTSUMY provides high-quality, high-value-added equipment and technology in the products we export between various countries and their trading partners.

We have one of the largest databases, both in terms of number of countries and information on heavy industry companies abroad. We work in the development and supply of technology to more than 80 countries according to our freight invoices and the customs records that we have.

We process millions of parts, parts, equipment, supplies, military technology, and heavy industry solutions in a systematic way to deliver to thousands of customers worldwide.

KOTSUMY

KOTSUMY operates in a diversified manner, concentrating its warehouses in different industrial zones with port and airport access for the dynamic distribution of parts and components for the industry. We work with more than 500 of China's top companies and are recognized as a leader in the Chinese heavy machinery industry.

Collaborating with more than 200 partner companies, KOTSUMY operates specialized industrial divisions, each focused on offering customized products and services for the heavy industry that our customers require.

Our Headquarters are located in Hong Kong, while our operating and engineering plants are distributed throughout different provinces and industrial zones in China.
